1 Introduction

The **Applicant Assessment System** is a web application that replaces the paper-based staff applicant evaluation process. It combines all assessment instruments into one guided, interactive workflow and automatically generates a professional PDF report at the end.

The system covers five assessment instruments:

Instrument	What it captures
Personal Information Sheet	Basic personal, contact, and emergency details.
Family Background	Household members and their information.
Applicant Questionnaire	Answers to 20 structured interview questions.
Temperament Test	Descriptor words selected across four temperament types.
Emotional Intelligence Test	45 items across five EQ composite scales.

Who uses this manual: Interviewers, HR assistants, and any staff member who conducts or records applicant assessments.

2 System Requirements

2.1 Hardware & Software

Requirement	Minimum
Computer	Desktop or laptop computer (works on tablets with a keyboard)
Operating System	Windows, macOS, or Linux
Browser	Current version of Google Chrome, Microsoft Edge, Mozilla Firefox, or Safari
Internet	Not required after the app has loaded once (libraries are bundled locally)
Printer (optional)	Any printer for printing the report

2.2 Getting the Application

1. Copy the entire application folder to the computer (e.g., USB drive, shared drive, or desktop).
2. Keep the folder structure intact — do not move `index.html`, `css/`, `js/`, or `lib/` out of place.

Tip: Because all data is saved in the browser, the same computer should be used to continue a draft assessment.

3 Getting Started

3.1 Opening the Application

1. Locate the file **index.html** in the application folder.
2. Double-click it to open in your default web browser.
3. The application loads immediately with the **Applicant Details** step shown.

3.2 The Interface

- **Sidebar (left):** lists the six steps. Click any step to jump to it. Completed steps are highlighted.
- **Progress bar (top):** shows how far you are through the assessment.
- **New button (top right):** clears the current data and starts a fresh assessment.
- **Next / Back buttons:** move between steps.

Figure 1. The main interface with the sidebar, progress bar, and Step 1 (Applicant Details).

4 Step 1 — Applicant Details

1. **Full Name** and **Position Applied For** are required fields.
2. Enter the remaining personal details: date of birth, age, sex, civil status, religion, address, mobile number, and e-mail address.
3. For **Sex** and **Civil Status**, click the appropriate pill button.
4. Enter the **Emergency Contact** information.
5. Set the **Date of Interview** (defaults to today) and the **Interviewer** name.
6. Click **Next: Family Background**.

Tip: If you enter a date of birth in MM/DD/YYYY format and leave Age blank, the age is computed automatically.

Figure 3. Step 2 — Family Background table.

6 Step 3 — Interview Questionnaire

1. Read each of the 20 questions aloud and type the applicant's answer in the text box below it.
2. Record optional **Comments** and **Suggestions** for the HR review at the bottom of the page.
3. Questions may be left blank if the interviewer prefers; they will appear as "No answer recorded" in the report.

The screenshot displays the 'Interview Questionnaire' form within the 'Applicant Assessment Evaluation System'. A dark sidebar on the left contains a navigation menu with six items: 'Applicant Details', 'Family Background', 'Interview Questionnaire' (highlighted), 'Temperament Test', 'Emotional Intelligence', and 'Review & Download'. The main content area is titled 'Interview Questionnaire' with a subtitle 'Responses to the 20 interview questions' and a 'New' button in the top right. Below the title, a section labeled 'Applicant Questionnaire' instructs the user to 'Record the applicant's answers to the interview questions.' It lists 20 numbered questions, each followed by a text input field. The questions cover topics such as self-introduction, reasons for leaving a job, reasons for being hired, company knowledge, work environment preferences, weaknesses, strengths, accomplishments, job likes/dislikes, career happiness, stress management, current earnings, salary expectations, job offers, start dates, things not enjoyed, resume highlights, and top life priorities. At the bottom, there are two text areas: 'Comments' (containing the text 'The applicant presented herself well and answered questions clearly. Good attitude and willingness to learn.') and 'Suggestions' (containing the text 'Consider for a follow-up interview. Verify references and work history.'). Navigation buttons at the bottom include 'Back' and 'Next: Temperament Test'. A footer note states: 'Applicant Assessment System - All data is stored locally in this browser.'

Figure 4. Step 3 — Applicant Questionnaire with comments and suggestions.

7 Step 4 — Temperament Test

1. Four cards are shown: **Choleric, Sanguine, Melancholic, and Phlegmatic**, with 20 descriptor words each.
2. Click every word that best describes the applicant. Click again to deselect.
3. The count at the top of each card updates live.
4. The highest-scoring card is highlighted and labelled ★ **DOMINANT**.

Interpretation: Scores of 15–20 are *Strong*, 10–14 *Moderate*, 5–9 *Mild*, and 0–4 *Minimal*. Each person is a blend of all four types; the dominant type shows natural strengths and tendencies.

Applicant Assessment System · All data is stored locally in this browser.

Figure 5. Step 4 — Temperament Test word checklist.

8 Step 5 — Emotional Intelligence Test

1. Five composite scales are presented in order: Interpersonal Skills, Self-Actualization, Social Responsibility, Impulse Control, and Reality Testing.
2. For each of the 45 statements, select one response: **5** Strongly Disagree · **4** Somewhat Disagree · **3** No Opinion · **2** Somewhat Agree · **1** Strongly Agree.
3. Click a selected response again to clear it.
4. Each scale's header shows a **live score** and interpretation as items are answered.

Scoring bands (per scale, max 45): 0–15 EXCELLENT (Effectively Functioning) · 16–30 GOOD (Functioning) · 31–45 POOR (Needs Improvement). Lower totals mean stronger emotional functioning.

10 Managing Assessments

10.1 Auto-Save

All entries are saved automatically in the browser's local storage as you type. If the page is refreshed or the tab is closed accidentally, reopen **index.html** and the previous data is restored.

10.2 Starting a New Assessment

1. Click the **New** button at the top right.
2. Confirm when prompted. All stored data for the current assessment is permanently removed.

Important: Always download the PDF report before starting a new assessment, because the **New** action deletes the stored data.

10.3 Printing the Report

1. Click **Print** on the Review page (Step 6).
2. In the print dialog, choose the destination (printer or "Save as PDF").
3. The report is printed in A4 portrait layout.

10.4 Moving Data to Another Computer

Data is stored per browser and per computer. To continue on another device, download the PDF report and store it in the applicant's personnel file; re-enter data on the new device if a draft must continue.

11 Troubleshooting & FAQ

Question / Problem	Solution
The page does not open or shows a blank screen.	Open index.html with a supported browser (Chrome, Edge, Firefox, Safari). Make sure the lib/, css/, and js/ folders are alongside it.
The PDF does not download.	Check the browser's download settings and pop-up blocker. Try the Print button and choose "Save as PDF" instead.
My progress is gone after reopening the app.	Data is stored in the browser that last used it. Reopen the app in the same browser and computer. Clear browser history/site data deletes saved assessments.
How do I view a sample assessment?	Append ?demo to the page URL (e.g., index.html?demo) to load a filled sample. Use ?demo&step=4 to jump directly to a step.
Can I leave some questions unanswered?	Yes. The report still generates; unanswered items are marked "Not completed" and warnings are shown on the Review page.
How are temperament and EQ scores computed?	Temperament counts selected words per type (highest = dominant). EQ sums each scale's 9 responses (1–5) and maps them to the EXCELLENT / GOOD / POOR bands.
Is an internet connection required?	No. All scripts are bundled locally. Load the page once with any browser, and it works offline afterward.

Still having trouble? Contact the HR Development team with a description of the problem, the browser used, and a screenshot of any error message.
